## Work Experience

### Software Engineer at Resite Online, Dominion Enterprises

February 2008 - Present; Norfolk, VA

Responsible for the quality and timely delivery of classes and database queries for a highly-available resident portal, CMS, and lead management system built on the LAMP platform .

#### Selected Accomplishments:

- Developed and maintained web service and direct database integrations between our two products and dozens of customers and technology partners
- Developed an API for integrating leads into our Lead Management System
- Picked up an AMSI integration project that a teammate was struggling with and turned it around in 4 weeks
- Designed and developed an MVC Plugin Model to be used for all client sites and our resident portal
- Created a custom page system and helped train customer support on it in just a few weeks
- Quickly learned a desktop application written in Java and supported it for the duration

### Freelance Web Developer

April 2007 - Present

Freelance web developer working on a multitude of projects ranging from Gaming to Politics.

#### Selected Accomplishments:

- Created a real estate listing to craigslist integration without the use of a public API
- Created an upload and extraction system for adding flash games to a gaming website that facilitated the addition of 4,000+ games in 1 night.
- Extended Wordpress to provide the custom, media-intensive political campaign website at scottrigell.com in just one month, and delivered one week ahead of schedule

### Web Developer at Quincy Newspapers Inc.

April 2007 - August 2007; Quincy, IL

Worked along side 2 web developers to accommodate the web needs of 15 news media companies.

#### Selected Accomplishments:

- Met extremely tight deadlines to complete tasks in a fast paced environment
- Developed online market portfolio for advertising costumers that increased sales site-wide
- Developed restaurant guide that helped bring in new advertisers

## **Assistant Production Manager at The Western Courier, Western Illinois University**

January 2006 – January 2007; Macomb, IL

Managed a team of Graphical Typesetters and determined ad placements as well as size of paper each week. Additionally, facilitated in the exporting of the finished paper production and the FTP transfer to our 3rd party printing company.

### **Selected Accomplishments:**

- Gained real world knowledge in my first leadership role
- Successfully lead a team of ad designers from conceptualization to print
- Responsible for a team that never missed a print deadline

## **Education**

### **Western Illinois University, Macomb, IL**

Some coursework completed with emphasis IDT and Computer Science

### **Southeastern Community College, Keokuk, IA**

Some coursework completed

### **Carl Sandburg College – Cisco Networking, Carthage, IL**

CCNA Coursework completed with potential to take CCNA Certification Test.
